BRITISH STREET FOOD / FIELD MANUAL 01

# THE YORKSHIRE BURRITO

A MODERN BRITISH FOOD-TRUCK RECIPE BOOK

## THE SUNDAY ROAST, ROLLED.

Yorkshire pudding wraps. Proper British fillings. Fast, clean service.
Built for a food truck, developed for the modern street.

METRIC RECIPES | BATCH PREP | SERVICE SPECS | ALLERGEN CONTROL

KITCHEN EDITION 01 • 23 OCTOBER 2026

THE FUTURE OF THE ENGLISH STREET FOOD TABLE

THE IDEA

# A roast dinner you can carry

A practical recipe and service manual for a British street-food concept: a thin, flexible Yorkshire pudding sheet rolled around a carefully portioned hot filling.

The Yorkshire Burrito takes the structural idea of a burrito and the flavour language of the British roast dinner. The wrapper is not a tortilla: it is a thin, oven-baked Yorkshire pudding sheet. Inside are roast meat or vegetables, crisp potatoes, a small amount of sauce and a fresh, sharp condiment. The key is to make a meal that is recognisably British, portable, and consistent at lunchtime pace.

> HOUSE RULE A wrap must be rollable before it is beautiful. Keep fillings dry enough to hold, sauces measured, and gravy mostly in a separate dip pot.

## HOW TO USE THIS BOOK

- Build the base first. Master the Yorkshire wrap recipe on page 4 before offering the full menu.
- Cook in components. Roast meats, potatoes, sauces and vegetables are prepared in batches, then assembled to order.
- Portion by weight. Each signature recipe gives a serving weight so the burrito is repeatable and the food cost can be calculated.
- Work to a written food-safety system. Temperature limits below are a starting point for operating procedures, not a replacement for the business's own validated safety plan.

## CONTENTS

| PAGE | CHAPTER | WHAT YOU GET |
|---|---|---|
| 03 | The menu & service standard | Menu architecture, portions and build formula |
| 04 | Master Yorkshire wrap | Batch of 8; mixing, tray preparation, bake and hold |
| 05 | Braised beef | Slow-cooked roast-style beef filling |
| 06 | Deep onion gravy | A measured, glossy dip sauce |
| 07 | Roasties & roots | Crispy potato, carrots, parsnips and moisture control |
| 08 | Stuffing & core sauces | Sage-onion crumb, horseradish cream, apple mustard |
| 09–13 | Five signature burritos | Sunday roast, chicken, pork, full English and chippy |
| 14–15 | Production appendices | Roast-meat batches, full-English batch and fish batter |
| 16 | The Yorkshire Garden | A substantial vegetarian signature |
| 17 | Finishing station | Pickles, garnish, sauces and assembly standards |
| 18–20 | Truck operations | Prep schedule, food safety, allergens and scaling |
| 21 | Launch notes & references | Pre-launch checklist and official guidance |

Design note: the menu is intentionally small. A shared base and overlapping ingredients improve speed, stock control and consistency. Every final menu needs testing on the actual truck equipment and in the serving packaging.

MENU ENGINEERING

# The menu & build standard

One recognisable format, six distinct British flavour profiles. Portion weights are targets per order; make a controlled test batch before locking in prices.

| SIGNATURE | FILLING / FLAVOUR | PORTION TARGET | SERVICE NOTE |
|---|---|---|---|
| 01 Sunday Best | Roast beef, crisp roasties, roots, greens, horseradish; gravy dip | 90 g beef + 55 g potato + 60 g veg / greens | House hero; sell with gravy pot |
| 02 Chicken & Stuffing | Roast chicken, sage-onion stuffing, cabbage, cranberry-mustard mayo | 100 g chicken + 30 g stuffing + 45 g potato | Bright, familiar, seasonal |
| 03 Pork & Orchard | Roast pork, apple mustard, crackling crumb, cabbage | 100 g pork + 25 g apple + 8 g crackling | Keep crackling dry until service |
| 04 Full English | Sausage, bacon, egg, hash brown, beans, brown sauce | 45 g sausage + 25 g bacon + 40 g egg + 40 g hash brown | Breakfast / brunch service |
| 05 Yorkshire Chippy | Crisp fish, chips, mushy peas, tartare; curry sauce dip option | 85 g fish + 45 g chips + 25 g peas | Fry fish to order; separate wet sauces |
| 06 Yorkshire Garden | Roast mushrooms, celeriac, Cheddar, onion, greens, mustard gravy | 90 g mushroom + 50 g celeriac + 25 g cheese | Vegetarian; verify rennet and stock |

## ONE-WRAP TARGET

Finished filling target: 170–240 g before the dip pot; most roast-style builds should land around 190–220 g, while the fish version is intentionally lighter. Use a 30 × 25 cm Yorkshire sheet and a consistent filling lane. More filling is not automatically better: an overfilled wrap tears, leaks gravy and slows service.

| BUILD ORDER | TARGET | REASON |
|---|---|---|
| 1. Barrier | 10–15 g thick sauce or greens | Reduces direct moisture on the wrapper |
| 2. Main filling | 90–100 g meat / 90 g mushroom | Makes the identity of the wrap clear |
| 3. Crisp starch | 40–55 g potato / hash brown / chips | Provides roast-dinner character and texture |
| 4. Vegetable / stuffing | 40–60 g combined | Adds balance without overfilling |
| 5. Finish | 5–15 g sauce; gravy mostly in a 60 ml pot | Prevents the sheet from becoming soggy |

> TRUCK STANDARD Use a digital scale for the first 20 service builds. Record weights, roll quality, leakage, customer feedback and average build time before changing portions.

FOUNDATION 01

# Master recipe: Yorkshire wrap

Yield: 8 sheets, each approximately 30 × 25 cm. Allow 10 minutes to mix, 30 minutes to rest, and 12–16 minutes per tray depending on oven and pan.

## INGREDIENTS

| INGREDIENT | BATCH OF 8 | PER SHEET |
|---|---|---|
| Plain flour | 400 g | 50 g |
| Medium eggs, weighed without shell if possible | 8 (about 400 g total) | 1 egg |
| Whole milk | 600 ml | 75 ml |
| Fine salt | 4 g | 0.5 g |
| Neutral rapeseed oil for the tray | 64 ml total, approx. | 8 ml |

## METHOD

1. Make the batter - Whisk flour and salt together. Add the eggs and about one-third of the milk; whisk to a smooth paste. Gradually whisk in the remaining milk. Strain through a fine sieve if there are lumps.
2. Rest - Cover and refrigerate for 30–60 minutes. Whisk briefly before portioning. If the batter thickens, loosen only with a small measured splash of milk.
3. Prepare a tray - Use a clean, rimmed metal tray approximately 30 × 25 cm. Add 8 ml oil and heat the tray in a 220°C conventional / 200°C fan oven for 5 minutes. Use heatproof gloves and keep the tray level.
4. Bake one sheet - Measure about 175 g batter into the hot tray and tilt quickly to cover the base. Bake 12–16 minutes until fully set, puffed at the edges and golden in patches. Do not bake to a hard, crisp finish: it must fold without cracking.
5. Release and cool - Loosen edges with a thin spatula. Slide the sheet onto a clean rack. Cool flat; do not stack while steaming. Once cool, place between food-safe greaseproof sheets and chill under your documented food-safety process.
6. Use in service - Handle gently. Add the fillings in a centred, compact lane, fold the short ends inward, then roll from the near long edge. Wrap in greaseproof paper and serve immediately with the gravy dip.

> TEST THE TRAY Ovens and tray materials behave differently. Bake one test sheet and adjust batter quantity or bake time only after checking that the centre is set and the sheet can roll. Record the final working specification.

Allergens in the base wrap: WHEAT / GLUTEN, EGG, MILK. This recipe is not gluten-free, dairy-free or egg-free. Prevent batter cross-contact and keep the allergen specification with the recipe.

FOUNDATION 02

# Component: braised roast beef

The hero filling should taste of a Sunday roast, but still be moist enough to eat in a handheld format. This batch should yield about 10 servings at 90–100 g cooked beef each; weigh the actual cooked yield.

## BRAISED BEEF BATCH

| INGREDIENT | QUANTITY |
|---|---|
| Beef brisket or chuck, trimmed | 1.4 kg |
| Fine salt | 14 g |
| Black pepper | 2 g |
| Rapeseed oil | 20 ml |
| Onions, roughly sliced | 300 g |
| Carrot, chopped | 150 g |
| Celery, chopped | 100 g |
| Tomato purée | 25 g |
| Beef stock | 600 ml |
| Red wine (or extra stock) | 250 ml |
| Thyme | 4 sprigs |
| Bay leaf | 1 |

## METHOD

1. Season and brown - Pat beef dry. Season with salt and pepper. Heat oil in a heavy ovenproof pan and brown the beef on all sides; remove to a plate.
2. Build the base - Add onion, carrot and celery. Brown for 8–10 minutes. Stir in tomato purée for 1 minute. Add wine and scrape the browned residue from the pan.
3. Braise - Return beef to the pan, add stock, thyme and bay. Cover tightly. Cook at 160°C conventional / 140°C fan for approximately 3–4 hours, until fork-tender. Add a little hot water or stock if the pan becomes dry.
4. Portion - Rest the meat briefly, then pull or slice across the grain. Strain the cooking liquor; reserve it for gravy. Weigh 90–100 g cooked beef per wrap. Do not estimate portions by eye.

> SERVICE ROUTE For a commercial setup, either hold the cooked beef hot under a measured hot-holding procedure, or chill it rapidly, store chilled and reheat a small batch thoroughly once for service. Do not repeatedly cool and reheat the same batch.

FOUNDATION 02B

# Component: deep onion gravy

A rich but clean-tasting dip sauce; concentrated enough to cling lightly to the meat, but fluid enough to pour from a 60 ml pot.

## INGREDIENTS

| INGREDIENT | QUANTITY |
|---|---|
| Unsalted butter or beef dripping | 25 g |
| Onions, thinly sliced | 250 g |
| Plain flour | 20 g |
| Tomato purée | 10 g |
| Red wine | 150 ml |
| Beef stock plus reserved braising liquor | 700 ml total, approximately |
| Worcestershire sauce | 10 ml |
| Thyme | 2 sprigs |
| Redcurrant jelly | 10 g, optional |

## METHOD

1. Caramelise - Cook onions in butter or dripping over medium-low heat for 18–25 minutes, stirring often, until deep gold but not burnt. Stir in the tomato purée for 1 minute.
2. Thicken and reduce - Stir in flour and cook 2 minutes. Gradually whisk in wine, then stock and braising liquor. Add thyme and Worcestershire; simmer 20 minutes, stirring to prevent sticking.
3. Finish - Strain, pressing gently on the onions. Add jelly if using. Reduce to a light coating consistency and taste. Keep gravy in a separate 60 ml lidded dip pot per order.

> VEGETARIAN ALTERNATIVE Use butter, browned onions, vegetable stock, thyme and a measured amount of mustard. Do not use the beef version or a stock cube that contains meat extract for the vegetarian wrap.

FOUNDATION 03

# Component: roasties, carrots & parsnips

Moisture management is crucial: crisp potato edges are a feature; wet vegetables are a leak waiting to happen. These are batch-prep quantities: use scales to portion and chill or hold safely between service batches.

## CRISP ROAST POTATOES

| INGREDIENT | QUANTITY |
|---|---|
| Maris Piper / King Edward potatoes, peeled | 1.2 kg |
| Beef dripping or rapeseed oil | 100 g / 100 ml |
| Fine salt | 10 g, plus boiling water salt |
| Garlic cloves, crushed | 3 |
| Thyme / rosemary | 4 sprigs total |

1. Cut & parboil - Cut into 4–5 cm pieces. Start in cold salted water; simmer 8–10 minutes until edges soften but centres remain intact.
2. Steam-dry & roughen - Drain and leave for 5–8 minutes. Shake the pan gently to create a thin, fluffy starch layer. Keep the potatoes whole enough to survive turning.
3. Roast - Heat fat in a tray at 220°C conventional / 200°C fan. Carefully add potatoes in one layer. Roast 45–60 minutes, turning every 15–20 minutes. Add herbs and garlic for the last 15 minutes. Season after roasting.

## HONEY-CIDER ROOTS

| INGREDIENT | QUANTITY |
|---|---|
| Carrots, peeled and cut into even batons | 500 g |
| Parsnips, peeled and cut into even batons | 500 g |
| Unsalted butter | 30 g |
| Clear honey | 25 g |
| Dry cider or apple juice | 60 ml |
| Thyme leaves | 2 g |
| Salt / black pepper | To taste |

1. Roast - Toss the dry-cut roots with melted butter, thyme, salt and pepper. Spread on a tray and roast at 200°C conventional / 180°C fan for 30–40 minutes, turning once.
2. Glaze late - Mix honey and cider. Add for the final 8–10 minutes and roast until glossy. Cool or hold under the business's documented process; drain off excess glaze before portioning.

PORTION GUIDE Per wrap: 55 g crisp potato plus 25–30 g root vegetables. Chop roast potatoes into 2–3 pieces after roasting if required for a neater roll. Avoid mashing them into the filling.

FOUNDATION 04

# Component: stuffing & sharp sauces

A compact stuffing crumb holds texture; horseradish, mustard and apple add acidity and lift. Keep sauces thicker than table-service versions so the wrapper stays intact.

## SAGE & ONION STUFFING

| INGREDIENT | QUANTITY |
|---|---|
| Butter | 30 g |
| Onion, finely diced | 180 g |
| Fresh breadcrumbs | 180 g |
| Sage, finely chopped | 8 g |
| Parsley, chopped | 8 g |
| Egg, beaten | 1 medium |
| Salt / pepper | To taste |
| Water or stock | 30–60 ml, as needed |

1. Sweat onion - Cook onion in butter over low heat for 10–12 minutes until soft and translucent, not dark brown. Cool until warm, not hot.
2. Mix - Combine with breadcrumbs, herbs and beaten egg. Add liquid sparingly until the mixture holds when squeezed but is not wet.
3. Bake - Press into a shallow oiled tray, about 2 cm deep. Bake at 190°C conventional / 170°C fan for 20–25 minutes until set and golden; ensure the centre is fully cooked. Cool and crumble into 20–30 g portions.

## HORSERADISH CRÈME FRAÎCHE

| INGREDIENT | QUANTITY |
|---|---|
| Crème fraîche | 150 g |
| Prepared horseradish | 20–30 g, to taste |
| Lemon juice | 10 ml |
| Fine salt | 1 g |

Whisk until smooth. Start with 20 g horseradish, taste, then add more if needed. Hold chilled in a labelled squeeze bottle or lidded container. Use 10–15 g in a beef wrap, with extra available only if the build still rolls cleanly.

## APPLE-MUSTARD SAUCE

| INGREDIENT | QUANTITY |
|---|---|
| Unsweetened apple sauce | 150 g |
| Wholegrain mustard | 20 g |
| English mustard | 5 g |
| Cider vinegar | 10 ml |
| Black pepper | To taste |

Mix and chill. This is intentionally thick and sharp. Portion 20–25 g with roast pork. If the apple sauce is very loose, drain briefly in a fine sieve rather than thickening it with starch.

> ALLERGEN CONTROL Stuffing includes WHEAT / GLUTEN and EGG; horseradish cream includes MILK and may include MUSTARD depending on brand. Apple-mustard sauce includes MUSTARD. Check suppliers and update the allergen matrix whenever an ingredient changes.

THE SIGNATURES

# Signature 01: Sunday Best

The flagship roast-dinner wrap. Build for contrast: hot beef, crisp potato, sweet roots, a little green, a controlled amount of horseradish and a gravy dip.

## PER-ORDER INGREDIENTS

| COMPONENT | WEIGHT / VOLUME |
|---|---|
| Yorkshire wrap sheet | 1 sheet, 30 × 25 cm |
| Cooked beef brisket / roast beef | 90–100 g |
| Crisp roast potato | 55 g |
| Honey-cider carrots / parsnips | 25 g |
| Cooked Savoy cabbage, well drained | 15 g |
| Horseradish crème fraîche | 10–12 g |
| Gravy for dip | 60 ml in separate pot |
| Optional crispy stuffing crumb | 10 g |

## ASSEMBLY — TARGET 60–90 SECONDS

1. Warm the work surface - Use the wrap at the validated serving condition for your process. It should bend without splitting and should not have wet condensation on it.
2. Create a barrier - Lay cabbage in a narrow strip just below the centreline, or spread a very thin layer of horseradish cream. Do not smear sauce across the entire wrap.
3. Add the hot filling - Place beef along the centre. Add 55 g potato, 25 g roots and optional stuffing crumb. Keep the filling lane compact, approximately 5–6 cm wide.
4. Fold & roll - Fold the two short sides inward. Pull the near edge over the filling, tuck firmly and roll away from you. Do not crush the Yorkshire sheet.
5. Serve - Wrap the lower half in greaseproof paper. Cut on a shallow diagonal only if the sheet is strong enough. Serve immediately with 60 ml hot gravy on the side.

> QUALITY CHECK The first bite should deliver beef and crisp potato; the second should bring sweet root and horseradish. If gravy leaks before the customer opens the wrap, reduce internal sauce rather than increasing the sheet size.

THE SIGNATURES

# Signature 02: Chicken & Stuffing

A Sunday-roast profile with sage, onion and cranberry brightness. Designed to use the same base wrap, roast potatoes and cabbage as the flagship.

## PER-ORDER INGREDIENTS

| COMPONENT | WEIGHT / VOLUME |
|---|---|
| Yorkshire wrap sheet | 1 sheet |
| Cooked roast chicken, sliced or pulled | 100 g |
| Sage & onion stuffing, baked and crumbled | 25–30 g |
| Crisp roast potato, chopped | 40–45 g |
| Cooked Savoy cabbage, drained | 15 g |
| Cranberry-mustard mayonnaise | 15 g |
| Chicken or light gravy | 50–60 ml dip pot |

## CRANBERRY-MUSTARD MAYONNAISE — BATCH OF 10

| INGREDIENT | QUANTITY |
|---|---|
| Mayonnaise | 150 g |
| Wholeberry cranberry sauce | 70 g |
| Wholegrain mustard | 10 g |
| Lemon juice | 5 ml |
| Black pepper | A pinch |

Whisk until just combined; some berry texture is desirable. Chill in a labelled container. Portion 15 g per wrap. Check the mayonnaise label for EGG and any other declared allergens.

## BUILD METHOD

1. Set the barrier - Spread cranberry-mustard mayonnaise in a narrow stripe, or place the drained cabbage first if the mayonnaise is particularly loose.
2. Fill - Arrange chicken, stuffing and roast potato down the centre. Do not add hot gravy inside; keep it in the dip pot.
3. Roll - Fold both ends, tuck the near edge under the filling and roll snugly. Keep the stuffing mostly inside the wrap to prevent loose crumbs at the seam.
4. Serve - Present with a 50–60 ml pot of hot chicken gravy. For a Christmas special, add 15 g finely chopped, cooked pigs-in-blankets as an optional paid upgrade; recheck the final portion and allergen specification.

> FOOD SAFETY Cook poultry thoroughly. The FSA advises that food should reach 70°C for 2 minutes, or an equivalent time-temperature combination, at its centre. Use a clean probe and follow the food business safety plan.

THE SIGNATURES

# Signature 03: Pork & Orchard

Roast pork, apple, mustard and crisp crackling are classic partners. The apple-mustard sauce adds acidity; the crackling stays dry until the last moment.

## PER-ORDER INGREDIENTS

| COMPONENT | WEIGHT / VOLUME |
|---|---|
| Yorkshire wrap sheet | 1 sheet |
| Cooked roast pork, sliced or pulled | 100 g |
| Crisp roast potato | 40 g |
| Cooked cabbage, drained | 15 g |
| Apple-mustard sauce | 20–25 g |
| Crackling crumb | 6–8 g |
| Pork / onion gravy | 50–60 ml dip pot |

## CRACKLING CRUMB

Use fully cooked, crisp pork crackling from the roast. Cool until crisp, then chop into 3–5 mm pieces. Store in a clean, dry, sealed container separately from the meat and sauce. Do not grind it to powder; a little texture is better. Sprinkle 6–8 g over the filling immediately before rolling.

## BUILD METHOD

1. Sauce first - Add 20–25 g apple-mustard sauce in a narrow stripe. Place cabbage alongside it as a moisture buffer.
2. Add pork and potato - Add 100 g hot pork and 40 g crisp potato. Check that the pork is hot throughout if it has been chilled and reheated.
3. Finish with crackling - Scatter crackling over the filling immediately before rolling. Wet crackling softens quickly, so never mix it through the gravy or apple sauce.
4. Roll and serve - Fold both ends, roll firmly without squeezing the filling, and serve with hot gravy in a separate pot.

> MENU VARIANT For a stronger Yorkshire profile, swap 5 g of wholegrain mustard for 5 g of English mustard in the apple sauce. Test the heat level with the target customer base before standardising.

THE SIGNATURES

# Signature 04: Full English

A breakfast-bap flavour profile in Yorkshire pudding form. The key is to drain the beans, portion the egg and keep the hash brown crisp until assembly.

## PER-ORDER INGREDIENTS

| COMPONENT | WEIGHT / VOLUME |
|---|---|
| Yorkshire wrap sheet | 1 sheet |
| Cooked sausage, sliced | 45 g |
| Crisp cooked back bacon, chopped | 25–30 g |
| Cooked egg, softly scrambled then set | 40 g |
| Crisp hash brown, chopped | 40 g |
| Baked beans, drained with a slotted spoon | 25 g |
| Brown sauce | 10–12 g |
| Optional grated mature Cheddar | 10 g |

## SERVICE PREPARATION

1. Cook proteins - Cook sausage and bacon thoroughly under the food-safety plan. Slice sausage and chop bacon into manageable pieces. Keep ready-to-eat items away from raw meat utensils.
2. Make egg portions - Scramble eggs with a little butter or oil in small batches. Cook until set and hot throughout. Use a fresh batch frequently rather than holding a large pan for too long.
3. Protect crispness - Keep hash browns on a rack rather than stacked in a covered container. Drain beans well; free liquid makes the Yorkshire wrapper tear.
4. Assemble - Use a narrow stripe of brown sauce, then add sausage, bacon, egg, hash brown and beans. Add cheese if offered. Fold and roll; serve with extra brown sauce in a sachet or pot if required.

> BREAKFAST SERVICE Do not add eggs or beans directly to the wrap pan. Use separate labelled utensils and containers, and keep the ingredient temperatures within the written food-safety limits.

THE SIGNATURES

# Signature 05: Yorkshire Chippy

A street-food nod to fish, chips, peas and tartare. To protect the wrapper, keep the fish crisp and the sauces separate; this variant is best assembled immediately before handover.

## PER-ORDER INGREDIENTS

| COMPONENT | WEIGHT / VOLUME |
|---|---|
| Yorkshire wrap sheet | 1 sheet |
| Crisp battered white fish, drained | 80–90 g cooked |
| Chips, well drained and lightly salted | 45 g |
| Thick mushy peas | 25 g |
| Tartare sauce | 10–12 g |
| Lemon wedge | 1 small, optional |
| Optional curry sauce | 60 ml separate dip pot |

## THICK MUSHY PEAS — BATCH OF 10

| INGREDIENT | QUANTITY |
|---|---|
| Frozen marrowfat or garden peas | 500 g |
| Butter | 25 g |
| Mint leaves, finely chopped | 4 g |
| Lemon juice | 10 ml |
| Salt / black pepper | To taste |

Cook peas until tender, drain very thoroughly, then crush roughly with butter, mint and lemon. Keep the mixture thick, not pourable. Chill or hot-hold using the business's documented process. If using marrowfat peas, follow package soaking/cooking instructions.

## ASSEMBLY

1. Prepare last - Cook the fish until crisp and thoroughly cooked; drain on a rack. Cook chips until crisp. Do not build this wrap early: steam quickly softens the fish coating.
2. Lay a dry base - Add 25 g thick peas in a short strip, then fish and chips. Use only 10–12 g tartare sauce inside.
3. Fold gently - Fold ends and roll carefully; large fish flakes can puncture the wrapper if pressed hard. Serve at once with lemon and optional curry sauce in a separate pot.

> FISH SAFETY & ALLERGENS Fish is a regulated allergen. Batter may contain WHEAT / GLUTEN, and some recipes or premixes may include EGG or MILK. Use separate fry oil and utensils where allergen control requires it; do not claim allergen-free if cross-contact cannot be prevented.

PRODUCTION APPENDIX A

# Batch prep: roast chicken & pork

Production recipes for the two roast-meat fillings. These batch yields are estimates: weigh the cooked result and portion the actual yield, rather than forcing the expected number of servings.

## A. ROAST CHICKEN — TARGET 10 WRAPS

| INGREDIENT | QUANTITY |
|---|---|
| Boneless, skinless chicken thighs | 1.35 kg raw |
| Rapeseed oil | 20 ml |
| Fine salt | 14 g |
| Black pepper | 2 g |
| Dried thyme | 3 g |
| Garlic, crushed (optional) | 2 cloves |

1. Season - Toss chicken with oil, salt, pepper, thyme and optional garlic. Arrange in a single layer on a clean roasting tray.
2. Roast and portion - Roast at 200°C conventional / 180°C fan until the thickest pieces meet the food-safety time/temperature target in the written plan. Rest for 10 minutes, slice, weigh the cooked yield and portion 100 g per wrap.

> YIELD CONTROL If cooked yield is short, make fewer wraps rather than silently shrinking the portion. If cooking from chilled or frozen product, follow the supplier instructions and your validated food-safety procedure.

## B. ROAST PORK SHOULDER — TARGET 10 WRAPS

| INGREDIENT | QUANTITY |
|---|---|
| Boneless pork shoulder, skin on | 1.6 kg |
| Fine salt | 18 g total |
| Black pepper | 3 g |
| Fennel seed, lightly crushed (optional) | 3 g |
| Onion, thickly sliced | 250 g |
| Dry cider | 200 ml |
| Pork or light chicken stock | 200 ml |

1. Prepare the skin - Pat skin completely dry and score in narrow lines without cutting deeply into the meat. Rub salt over the skin; season the meat side with pepper and optional fennel.
2. Roast - Put onion, cider and stock in the tray and sit pork on a rack above the liquid. Roast at 230°C conventional / 210°C fan for 25 minutes, then reduce to 160°C conventional / 140°C fan for about 2½–3½ hours, until tender and the thickest part meets the written safety target.
3. Rest and portion - If needed, raise oven temperature briefly to re-crisp the skin, watching closely. Rest at least 20 minutes. Separate the crackling and keep it dry; slice or pull the meat and weigh 100 g cooked pork per wrap.

> GRAVY VARIANT For pork, replace beef stock in the onion-gravy method with pork stock or light chicken stock and add strained pork roasting juices. Keep the beef and pork utensils, stock labels and service pans distinct.

PRODUCTION APPENDIX B

# Batch prep: breakfast & fish counter

The breakfast and chippy builds depend on crisp components and short holding times. Prepare in sensible batches; fry battered fish as close to handover as practical.

## A. FULL ENGLISH COMPONENTS — TARGET 10 WRAPS

| INGREDIENT | PREP TARGET |
|---|---|
| Pork sausages | 10 medium sausages; cook through, then portion 45 g cooked each |
| Back bacon | 400 g raw; cook until done, drain and portion 25–30 g cooked |
| Eggs | 10 medium; scramble in small batches and portion 40 g cooked |
| Hash browns | 10 × 50 g; cook until crisp and drain on a rack |
| Baked beans | 1 × 400 g tin; drain to obtain about 250 g solids |
| Brown sauce | 100–120 g for measured portions |

Cook sausage and bacon under the food-safety plan; use clean utensils when slicing cooked product. Scramble eggs in small batches and cook until set and hot throughout. Drain beans with a slotted spoon. Keep hash browns on a rack, not stacked in a covered pan. Actual yield varies by product and equipment.

## B. CRISP FISH BATTER — 10 PORTIONS

| INGREDIENT | QUANTITY |
|---|---|
| Skinless white fish, cut into 10 strips | 1.0 kg raw |
| Plain flour for dusting | 40 g |
| Plain flour for batter | 160 g |
| Cornflour | 40 g |
| Baking powder | 6 g |
| Fine salt | 4 g |
| Cold sparkling water or pale ale | 260 ml, approximately |

1. Mix just before service - Whisk batter flour, cornflour, baking powder and salt. Just before frying, whisk in cold sparkling water or pale ale until the batter resembles single cream. Keep the batter cold and make only the quantity needed for the service period.
2. Coat and fry - Dust fish lightly with the reserved flour, dip in batter and fry in small batches at approximately 180°C until crisp and fully cooked. Check the thickest piece against the written time/temperature target; drain on a wire rack.

> FRYER & ALLERGEN CONTROL Fish is a regulated allergen; the batter contains WHEAT / GLUTEN and may contain other allergens depending on ingredients. Do not claim allergen-free if shared fryer oil or utensils create cross-contact. Use heat-resistant tools and follow the fryer manufacturer's safety instructions.

THE SIGNATURES

# Signature 06: The Yorkshire Garden

A proper vegetarian main, not merely a side dish in a wrap. Roast mushrooms supply savouriness; celeriac adds a roast-like bite; mature Cheddar and mustard gravy make it feel generous.

## PER-ORDER INGREDIENTS

| COMPONENT | WEIGHT / VOLUME |
|---|---|
| Yorkshire wrap sheet | 1 sheet |
| Roasted mushrooms, cut into bite-size pieces | 90 g |
| Roasted celeriac or swede | 50 g |
| Mature vegetarian Cheddar, grated or shaved | 20–25 g |
| Cooked cabbage, well drained | 15 g |
| Caramelised onion | 15 g |
| Vegetarian mustard gravy | 50–60 ml dip pot |

## ROASTED MUSHROOM & CELERIAC BATCH

| INGREDIENT | QUANTITY |
|---|---|
| Chestnut mushrooms, quartered | 900 g |
| Celeriac or swede, peeled and diced 2 cm | 500 g |
| Rapeseed oil | 45 ml |
| Thyme leaves | 4 g |
| Salt | 10 g |
| Black pepper | 2 g |

1. Roast separately - Toss mushrooms and celeriac with oil, thyme, salt and pepper. Spread in one layer on separate trays. Roast at 210°C conventional / 190°C fan. Celeriac usually needs 30–40 minutes; mushrooms 20–25 minutes. Turn once and roast until browned and excess moisture has evaporated.
2. Make the build - Place drained cabbage and a small amount of onion down the centre. Add hot mushrooms and celeriac; scatter Cheddar over the hot filling so it softens slightly.
3. Roll and dip - Fold and roll firmly. Serve with a separate pot of vegetarian gravy made with vegetable stock, browned onion, thyme and a little mustard. Check the stock is vegetarian and the Cheddar uses vegetarian rennet.

> VEGETARIAN CONTROL This recipe is vegetarian only if every purchased ingredient, stock, cheese and frying medium is suitable. Cook on a cleaned surface with separate tools, and state honestly whether cross-contact can be avoided.

FLAVOUR TOOLKIT

# Finishing station: pickles & sauces

Small finishing elements create variation without requiring separate complex prep. Use labelled squeeze bottles and portion spoons; keep the station clean and dry.

| FINISH | SMALL BATCH | METHOD / USE |
|---|---|---|
| Quick red onion pickle | 200 g red onion; 100 ml cider vinegar; 100 ml water; 20 g sugar; 5 g salt | Slice thinly. Heat vinegar, water, sugar and salt until dissolved; pour over onion. Cool rapidly, chill and label. Drain well. Use 8–10 g in chicken or vegetarian wraps. |
| Brown-sauce mayo | 150 g mayonnaise; 35 g brown sauce; 5 ml lemon juice | Whisk smooth. Use 10 g in the Full English. Keep chilled and check mayonnaise allergens. |
| Mustard gravy finish | 250 ml vegetarian gravy; 8 g English mustard | Whisk mustard into hot gravy off the boil. Serve as a dip; keep vegetarian utensils separate. |
| Cider glaze | 100 ml dry cider; 15 g honey; 5 ml cider vinegar | Simmer to reduce by about half, then cool. Use only a teaspoon on roast roots; excess moisture weakens the wrap. |
| Crisp herb crumb | 50 g fine fresh breadcrumbs; 10 ml oil; 2 g thyme; pinch salt | Toast in a pan or oven until golden and dry. Keep in a labelled dry container; suitable for topping vegetarian or chicken builds if allergen controls permit. |

## THE MOISTURE MAP

### GOOD IN THE WRAP

Thick sauces in measured quantities; drained greens; roasted vegetables; rested meat; crisp potatoes added at the last moment.

### KEEP OUT / SERVE SEPARATELY

Ladles of gravy; watery peas; undrained beans; steaming wet vegetables; liquid left in meat trays; runny sauces that spread across the sheet.

PICKLE SAFETY The quick pickle in this manual is a refrigerated garnish, not a shelf-stable preserve. Keep chilled, label with preparation date and use-by time set by your food-safety procedure. Do not store at room temperature.

OPERATIONS

# Truck workflow: prep to service

A simple operating rhythm is safer and faster than preparing every element ad hoc. This is a sample schedule; adapt it to your equipment, volumes and validated food-safety system.

## EXAMPLE SERVICE-DAY SCHEDULE

| WHEN | ACTION | CONTROL POINT |
|---|---|---|
| Previous day / authorised prep kitchen | Prepare stock, sauce bases and recipes that are permitted by the business process. Label, date and chill. | Use suitable premises; cool cooked food rapidly and protect from contamination. |
| T–4 hours | Cook braised beef and roast vegetables; prepare stuffing and sauce batches. | Record cooking checks; separate raw and ready-to-eat zones. |
| T–2 hours | Bake a test wrap, then batch sheets. Cool flat; store covered and chilled under the documented process. | Do not stack hot sheets. Avoid condensation. |
| T–60 min | Set up labelled hot-holding pans, chilled sauces, fresh utensils, clean probe, handwash and sanitiser. | Record fridge and hot-hold temperatures. |
| Open | Bring out small working quantities. Keep replenishment batches in controlled storage. Assemble from weighed portions. | Keep hot-held food at or above 63°C; monitor and log according to the plan. |
| Rush period | Build in sequence: sheet, barrier, main, crisp starch, veg, controlled sauce, fold, paper, dip pot. | Use dedicated utensils and recheck temperature if equipment or batch changes. |
| Close | Discard or cool/store only food permitted by the documented procedure; clean and disinfect all contact surfaces. | Record waste, temperatures, faults and corrective action. |

## ASSEMBLY STATION LAYOUT

### LEFT TO RIGHT

1. Wrap sheets → 2. Barrier / greens → 3. Hot meat or vegetarian filling → 4. Potato and vegetables → 5. Sauce bottle → 6. Folding board → 7. Paper / dip pot / pass.

### DESIGN FOR SPEED

Keep the hottest pans away from cold sauce bottles. Use a clean, wipeable board; colour-code utensils where practical. Replace tongs that touch raw product before they touch cooked food.

REGULATORY CHECK Food businesses in the UK generally need to register with the local authority at least 28 days before trading. Street-trading permissions and conditions vary by council and pitch; check the local authority, market organiser and landowner before opening.

OPERATIONS

# Food safety & allergen controls

Commercial recipe development must sit inside a written food-safety management system. These are key reference limits and checks, not a complete HACCP plan.

## TEMPERATURE RULES TO BUILD INTO THE PROCESS

| CONTROL | WORKING RULE | RECORD / CORRECTIVE ACTION |
|---|---|---|
| Cooking | The FSA gives 70°C for 2 minutes at the centre, or equivalent combinations such as 75°C for 30 seconds. | Probe the thickest point with a clean, disinfected thermometer. Follow product-specific and legal guidance. |
| Hot holding | Keep hot food at 63°C or above. | Probe and log at the frequency in the food-safety plan. If below the limit, follow the approved corrective-action procedure; do not guess. |
| Chilled storage | Keep chilled food at 5°C or below as a practical target; relevant legal limits and exceptions depend on food and jurisdiction. | Use a fridge thermometer, log checks and avoid overfilling the fridge. |
| Reheating | Reheat until steaming hot throughout; the business may use a validated core/time target (commonly 75°C) in its written system. Reheat only once as a standard operating rule. | Probe, record and move directly to hot holding or immediate service. Never mix a newly reheated batch into an older pan. |
| Cooling | Cool cooked food as quickly as possible using shallow trays, small portions or suitable rapid-cooling equipment. | Do not leave bulk food to cool slowly on the counter. Record time and temperature where the plan requires it. |
| Probe hygiene | Clean and disinfect the probe between different foods and after any contamination. | Use the probe manufacturer's instructions; check calibration/accuracy regularly. |

## ALLERGENS TO REVIEW ACROSS THIS MENU

| ALLERGEN | WHERE IT MAY APPEAR IN THESE RECIPES |
|---|---|
| Cereals containing gluten / wheat | Yorkshire wrap, flour-thickened gravy, stuffing breadcrumbs, battered fish, some sauces |
| Egg | Yorkshire wrap, stuffing, mayonnaise, some batters |
| Milk | Yorkshire wrap, butter, crème fraîche, Cheddar, some sauces |
| Mustard | Horseradish / mustard sauce, apple-mustard sauce, some gravy |
| Fish | Yorkshire Chippy filling and possibly Worcestershire sauce |
| Celery / sulphites / other allergens | May be present in stock, wine, vinegar, sauces or supplier products; check actual labels |

The UK requires food businesses to provide allergen information for food they serve, including non-prepacked food. Keep a live written allergen matrix tied to exact supplier labels and recipes, train staff, and prevent cross-contact. If you cannot confidently serve an allergen-free option, say so clearly.

OPERATIONS

# Scaling, kit & quality control

Scale a recipe by multiplying its ingredient weights, not by guessing. Scaling cooking time is not linear; use tray loading, depth and temperature checks to determine readiness.

## BATCH SCALING QUICK REFERENCE

| ITEM | 8 WRAPS | 20 WRAPS | 40 WRAPS |
|---|---|---|---|
| Yorkshire wrap flour | 400 g | 1.0 kg | 2.0 kg |
| Eggs | 8 | 20 | 40 |
| Milk | 600 ml | 1.5 L | 3.0 L |
| Beef filling at 95 g | 760 g cooked | 1.9 kg cooked | 3.8 kg cooked |
| Roast potato at 55 g | 440 g cooked | 1.1 kg cooked | 2.2 kg cooked |
| Dip gravy at 60 ml | 480 ml | 1.2 L | 2.4 L |

## ESSENTIAL EQUIPMENT

- Digital scales, calibrated probe thermometer, fridge thermometer and timer.
- Commercial oven, rimmed sheet pans sized for the wrap, roasting trays, hot-holding equipment and adequate chilled storage.
- Dedicated boards, tongs, ladles, labelled gastronorm pans, sauce bottles, greaseproof paper and 60 ml lidded dip pots.
- Handwashing facilities, cleaning and disinfecting chemicals suitable for food areas, colour-coded cloths, covered waste and a written opening/closing checklist.

## TROUBLESHOOTING

| PROBLEM | LIKELY CAUSE | FIX |
|---|---|---|
| Wrap cracks when rolled | Baked too dry / too dark; rested uncovered too long | Reduce bake time after validation; store between food-safe sheets; handle gently. |
| Wrap is gummy in the middle | Too much batter, cool tray or underbaked centre | Recheck batter weight, tray temperature and oven setting. |
| Wrap leaks gravy | Too much sauce inside or watery filling | Serve gravy as dip; drain vegetables; use exact sauce portions. |
| Potatoes lose crunch | Held in a deep covered pan or stacked while steaming | Hold on a rack or shallow tray; refresh small batches; never cover tightly. |
| Slow service | Menu has too many unique components; portions not pre-weighed | Use a common mise en place; weigh portions; keep the menu compact. |
| Inconsistent taste | Recipe drift, ingredient brand changes or over-reduction | Weigh ingredients, document supplier changes and taste each batch. |

REFERENCE

# Launch notes & references

Use this page as a final pre-launch checkpoint. Recipe specifications should be field-tested and signed off against the actual equipment, workflow and local requirements.

## BEFORE TRADING

- Register the food business with the relevant local authority at least 28 days before trading; confirm which premises details apply to the mobile unit and its usual overnight base.
- Check street-trading consent, market rules, landowner permission, power/gas requirements, fire safety, waste disposal, potable water and handwashing arrangements for the actual pitch.
- Complete and maintain a food-safety management system based on HACCP principles (for example, the relevant FSA pack), staff training, cleaning schedules, temperature records and corrective-action logs.
- Validate the Yorkshire wrap: tray dimensions, batter weight, bake time, rollability after chilling, service throughput and packaging. Do not assume results transfer between ovens.
- Create a version-controlled recipe pack, supplier specification file, live allergen matrix, date labels and portion-cost spreadsheet before putting prices on the menu.

## RECIPE STATUS

> DEVELOPMENT EDITION This is an original recipe and operations concept, not an accredited commercial food-safety plan. Verify all recipes and controls with your local authority / competent food-safety adviser before trading. Allergen declarations must be based on the exact ingredients and supplier labels used.
